# Introduction

## What does it do?

Show an image gallery which is further displayed when scrolling down. A slideshow starts upon click on the picture.

## Screenshots

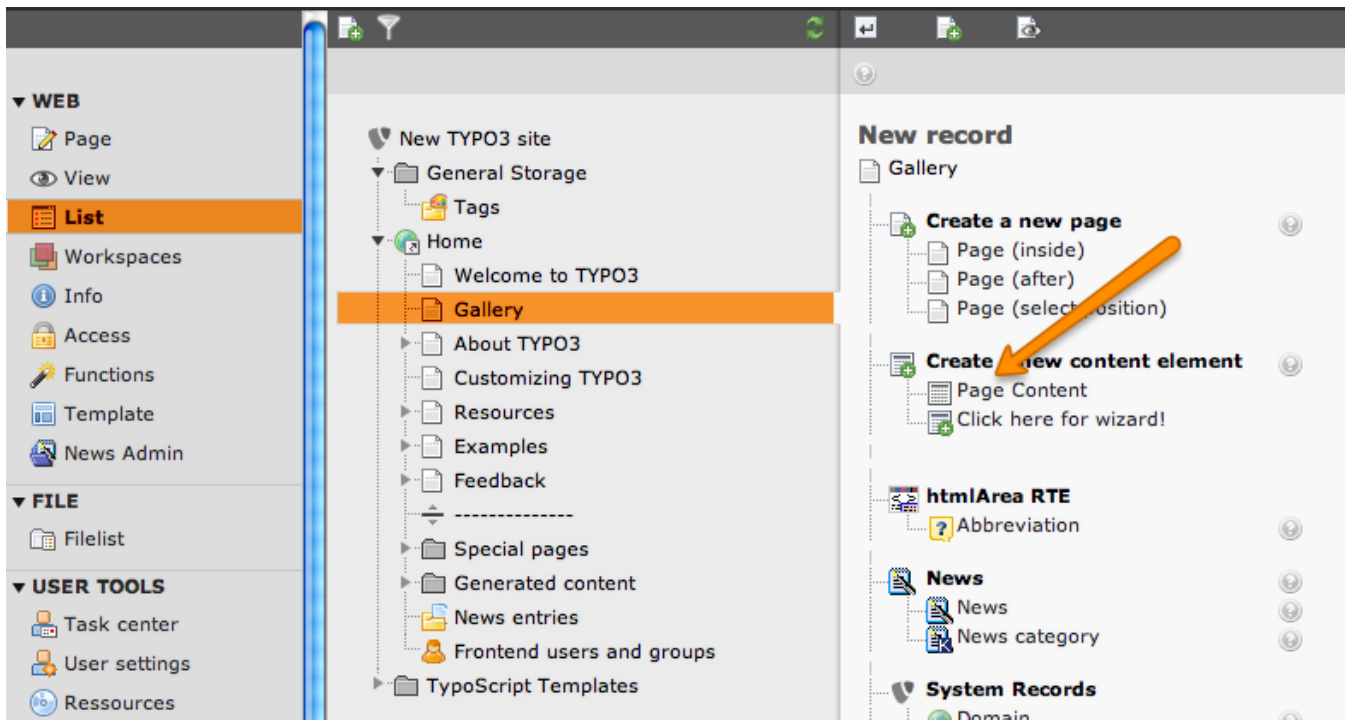

Here you see what the extension does:

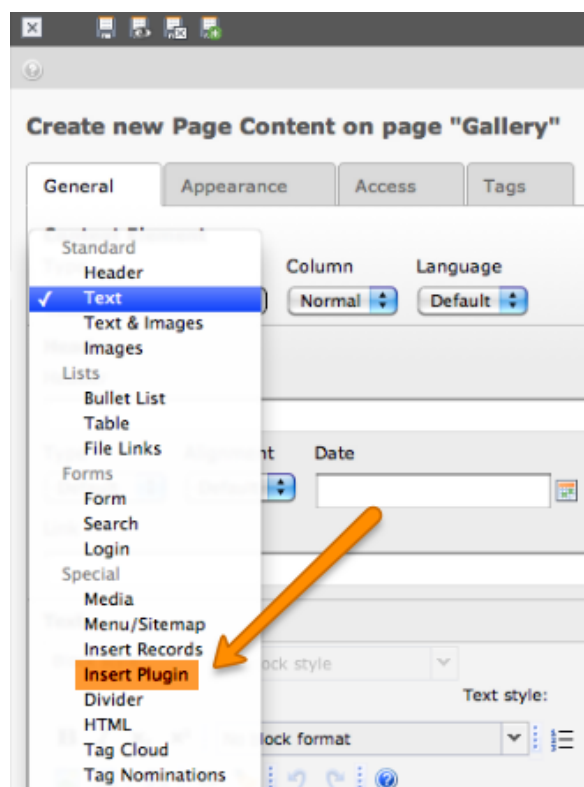

# Users manual

To install a gallery on a page:

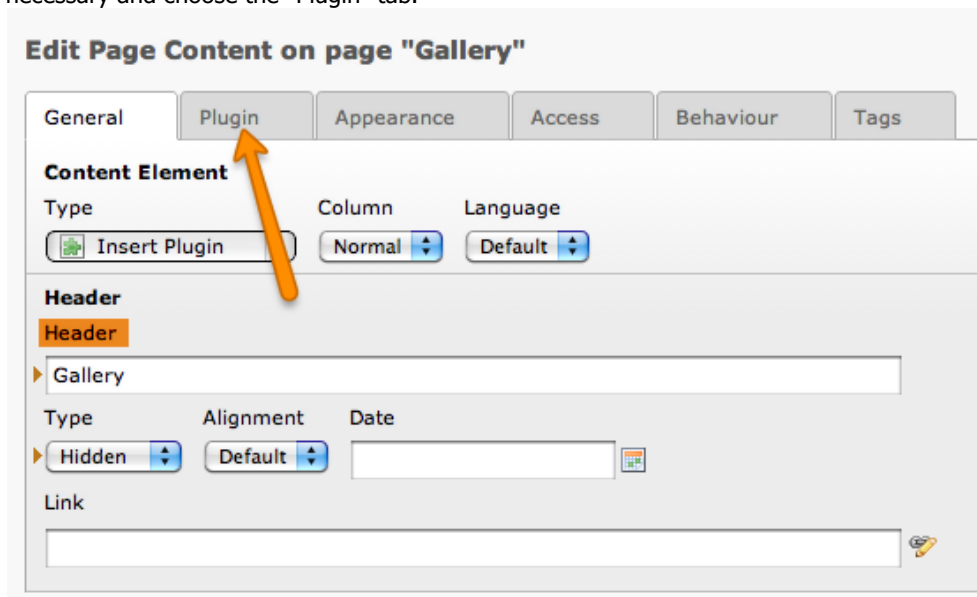

Click on the page where the gallery should be displayed and create a new content element.

Choose the plugin "Infinite Scroll Gallery"

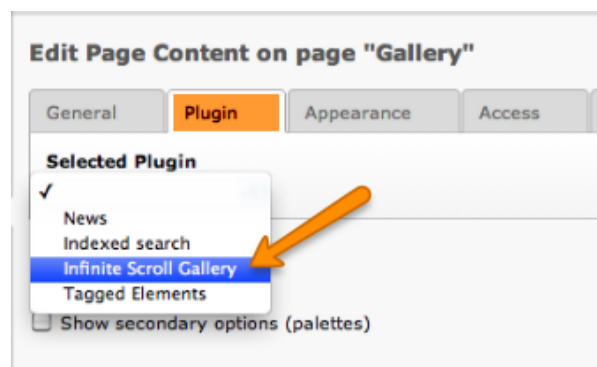

Give a Header if necessary and choose the "Plugin" tab.

The screenshot shows the 'Edit Page Content on page "Gallery"' interface. At the top, there are tabs: 'General', 'Plugin' (highlighted with an orange arrow), 'Appearance', 'Access', 'Behaviour', and 'Tags'. Below the tabs, the 'Content Element' section includes a 'Type' dropdown set to 'Insert Plugin', a 'Column' dropdown set to 'Normal', and a 'Language' dropdown set to 'Default'. The 'Header' section is expanded, showing a 'Header' label, a text input field containing 'Gallery', a 'Type' dropdown set to 'Hidden', an 'Alignment' dropdown set to 'Default', a 'Date' input field, and a 'Link' input field.

Choose "Infinite Scroll Gallery" plugin

This screenshot shows the 'Selected Plugin' dropdown menu open in the 'Plugin' tab. The menu lists four options: 'News', 'Indexed search', 'Infinite Scroll Gallery' (highlighted with an orange arrow), and 'Tagged Elements'. There is a checkmark next to 'News'. Below the list is a checkbox labeled 'Show secondary options (palettes)' which is currently unchecked.

1. The plugin "Infinite Scroll Gallery" is selected.
2. Tick if the images should be loaded when scrolling.
3. Choose the number of images to display by default (before the others will be loaded by scrolling).
4. Choose the dimension of the thumbnails.
5. Choose the dimension of images for the slideshow.
6. Choose which pictures to display by selecting the tag id.
7. Configuration for the filter.
8. Choose how to order the images in the gallery.
